

Easy Assembly Transaction Solution

EATS is a simple, comprehensive tool to manage your easy meal preparation business' registration, customer communications, inventory, and overall experience. EATS allows for all of your information to be easily and securely managed from any computer connected to the Internet. EATS' look and feel can be customized as you like or be integrated into your existing website.

With a management tool this easy to use you'll be able to concentrate on what you really enjoy: building your business by creating exciting meals that keep your customers coming back for more!

Pricing Made Easy

Whether you have one location or twenty locations in multiple cities or even countries, we've made integration extremely cost effective. A low one-time customization fee means no large, intimidating outlay. Monthly management fees means software updates and upgrades are ALWAYS FREE and always taken care of for you.
